The game looks pretty good. The controls are decent, provided you stay in 3rd person perspective.

That said. There isn't much to do in this game. You just shoot the same set of very slow moving zombies. Over and Over. It lacks any meaningful challenge. All that leaves you to look forward too is new guns. The gun you start with has plenty of ammo, and packs a decent enough punch. So new guns are cool, but not really important.

Overall pretty bland. Wouldn't recommend. you can see for yourself in the video I created here:

<https://youtu.be/V4yjE3B8EcK4>. a video game for ugly fat people. So I wasn't expecting much from this game. But I figured it's on the Halloween sale and it's only \$1.49 so why not give it a go. The game lasted approximately 24 minutes. **I played this on the Oculus Rift with Touch Controllers. I had some issues with the button mapping, but nothing that kept me from enjoying the game (press touchpad down and swing arms to move).**

**This is a spooky/campy filled maze where you shoot things that go bump in the night. There's an outside hedge maze, an underground psychedelic subterranean maze, and there's a brief haunted house maze. The game pacing is brisk. The mazes are not all the confusing, except for the subterranean one (mostly because of the tripping on shrooms visual effects). There will be several jump scares where you're supposed to quickly shoot the target. I never figured out whether it was possible to die. The guns seem underpowered as you have to hold down trigger for a second for them to shoot. The guns look silly.**

**I had fun. But I don't think I'd want to do the maze again. The whole click on the touchpad, gaze in the direction, and swing arms locomotion should never be a default locomotion method. I started feeling carpal tunnel stress from this action. It also made the game frustrating when it didn't need to be. Also, the graphics were subpar, but at least there was lots of graphical variety within the maze.**

**Rate 6.66/10 Ending is such sweet sorrow \*spoiler alert\* you shoot yourself in the head at the end to escape the maze. great game with great graphics would recommend 10/10. Loved the game. But still**

**Hisoutensoku >>>>>>>>>> Antimony >>>>>>>>>> USF4 > SF5**

**Gimme Hisoutensoku complete on Steam, I'll buy it fullprice!. You should absolutely consider buying this game; if you like to play action games which you can con top notch various spaceships and feel the power of destroying your foes brutally!**

**The game presents stunning visuals, exotic atmospheres, different spaceship options, astounding in-game audio tracks and different multi-player options.**

**With this price, it is insanely great content for an early access game.**

**After 500+ hours of Elite Dangerous gameplay experience, this is totally an action game that I've been looking for...**

**If you need a space action game to blow off steam, this should be your game :)**

\$0.99 don't mind if I do..... Game seems unfinished to this moment and released in haste, but Unabara Iruka is a pretty cool dev, so I'll believe it would be getting better with every patch!. Ok, cancel what I wrote 6 months ago...  
At February 2018, the devs have failed to update the game or EVEN ANSWER TO THE USERS ON THE FORUM from the last November...  
The game seems 'dead'.  
Peace: I'm trying to get a refund.

<--->

I've purchased a number of Early Access games in the past and... I'm pretty confident that this could become something funny to play.  
Ok, I admit it's still pretty "raw" and the price is, I think, to high for a product that still need much work.  
But the global experience is quite good and I see developers actively working on it.  
For now, maybe try it discounted, and see if you want to support the development and have some hours of fun with some (minor, for what I experienced) bugs.. Revive this amazing mod!  
more downloads = more players = more fun :D

. For 2 AI lords and a few Skirmish trails.

I do not reccomend this. DLC that could of been in the game from the start. I know they will make more and charge us if they see it was successful. R.I.P Firefly Stronghold 3-Stronghold Crusader 2. So \u2665\u2665\u2665\u2665ing frustrating and annoying . My agro level is over 9000.

Please put in check points or saves during a level.
